Dr. Rupali Pawar CEO,  
TechieMindz Pune

**Subject:** TechieMindz's Contribution to Robotics Learning at Ankuram School (AY 2024-25)

Dear Team TechieMindz,

On behalf of Ankuram School, we would like to extend our sincere appreciation for successfully conducting Robotics and Electronics classes for our students of Grades II to VIII during the academic year 2024-25.

The program proved to be extremely beneficial for our children. It provided them with hands-on exposure to:

- Understanding basic electronic components
- Learning the fundamentals of breadboard mounting and circuit building
- Working with ICs and sensors
- Designing and implementing IoT-based projects

These sessions not only strengthened their conceptual understanding but also sparked their curiosity, creativity, and problem-solving skills. Many students were able to explore new ideas, build working models, and gain confidence in applying science and technology in real-life contexts.

This program received overwhelming appreciation from parents and external experts during the annual project exhibition, where students showcased their class-wise group projects. The confidence and clarity with which our students presented their work highlighted the depth of their learning and reflected the program's effectiveness.

We truly appreciate the structured approach, interactive methodology, and patient guidance offered by your instructors, which made the learning experience engaging and enjoyable for our students.

We look forward to continuing this association and bringing more such innovative learning opportunities for our children in the years ahead.

Sincerely,

Rajeshwari

Principal  
Rajeshwari Janakiraman  
The Keystone Ankuram School
